# Datasheet EE431

## Duct and Immersion Temperature Sensor

# EE431

## Duct and Immersion Temperature Sensor

The EE431 duct and immersion sensor reliably measures the temperature (T) in air and liquids and is optimized for building automation, HVAC and process control.

### Analogue, Digital and Passive Outputs

The measured data of the temperature is available at the voltage or current output, as well as on the RS485 interface with Modbus RTU or BACnet MS/TP protocol. In addition, EE431 features a wide choice of sensing elements for passive T measurement. An optional display is available for the EE431 with analog output.

### Easy Installation

The device can be mounted either with the plastic mounting flange or via external mounting holes at the enclosure. The innovative immersion well is dedicated for measurement in liquids and allows for fast and safe replacement of the sensor. The EE431 with RS485 interface is appropriate for daisy chain wiring.

### Configurable and Adjustable

An optional adapter and the free Product Configuration Software facilitate the setup and adjustment of the EE431.

EE431 temperature sensor with immersion well

EE431 temperature sensor with mounting flange

EE431 temperature sensor with display

# Features

## Enclosure

- Protection rating: IP65/Nema 4X
- Polycarbonate (PC)

## External mounting holes

- Mounting with closed cover
- Protection against construction site pollution
- Easy and fast mounting

## Bayonet screws

- Open/close with a ¼ rotation

## LC display (optional)

- 38 x 20 mm (1.5 x 0.8")

## Screw clamp

- No direct screwing onto probe
- Inclined screw for easy installation

## Immersion well

## Innovative mounting spring

- For securing the probe inside the well
- No fastening screw, no tools required

## Mounting flange

## Special sealing

- Foam gasket for good tightness
- No scratching of probe due to alignment notch

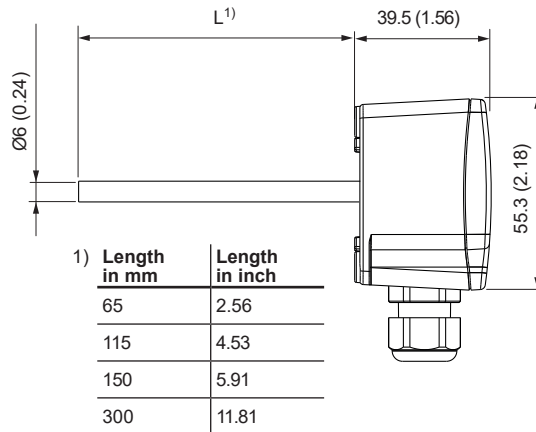

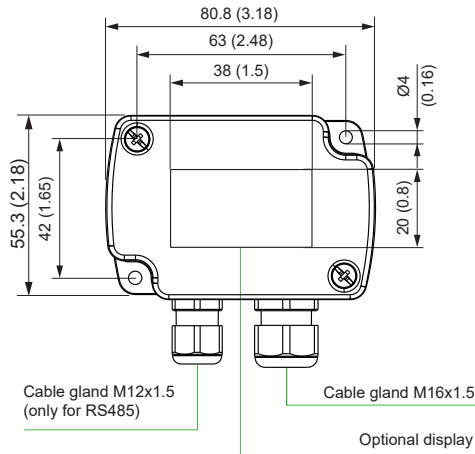

## Test report

According to DIN EN 10204-2.2

# Dimensions

Values in mm (inch)

## Temperature sensor

## Mounting accessories

### Mounting flange

(not included in the scope of supply)

### Immersion well

(not included in the scope of supply)

2) Length in mm	Length in inch
50	1.97
100	3.94
135	5.31
285	11.22

# Technical Data

## Measurands

### Temperature (T) - Active

<b>Measuring range</b>	<b>Duct sensor (probe tip)</b> <b>With immersion well (probe tip)</b>	-40 °C...+110 °C (-40...+230 °F) -40 °C...+130 °C (-40...+266 °F)
